HIS ANNUAL REPORT.

Secretary Tindall Reviews the Busi-

Dr. William Tindall, secretary of the board of District Commissioners, has submitted to that body his annual report for the past fiscal year. He says he has no suggestions to make of sufficient importance to bring to especial attention respecting the business of the office of the secretary of the board, other than to renew those submitted in his report for the fiscal

year 1900. The need for a librarian and suitable acommodations for the increasing accumulation of books, pamphlets and other publications grows more pressing with each year, he declares, and in his judgment a committee should be appointed to consider and report whether a single system should be established for keeping the correspon-dence and records of all the departments. Opinions both for and against the adoption of that system have been expressed to such an extent that it seems desirable that it be made the subject of special investigation and report.

Further, Dr. Tindall says:
"By direction of the Commissioners I received and transmitted to the mayor of Jacksonville, Fla., contributions of money amounting to \$385.36 for the relief of sufferers from the protable detection." ferers from the notable destruction property in that city by fire on the 3d of last May. I take pleasure in making acknowledgment of the public-spirited courtesy of Mr. Clarence F. Norment, president of the Central National Bank of this city, in furnishing without charge the drafts by which these contributions were transmitted to the mayor of Jacksonville, which was in keeping with his like generous action in providing the drafts with which the funds contributed for the relief of the sufferers by the storm at Galveston were transmit-ted to the authorities of Texas."

Mr. S. H. Kauffmann was elected to fill a vacancy on the board.
